1
Marketing function owned end to end — brand, web, events, growth

I lead marketing the way a *designer* would — the campaign, the brand system, the website and the room it all gets pitched in are **one continuous piece of work.** Trained as a *3D generalist* and rooted in Fine Arts, so the strategy never arrives separately from the craft. Most at home where **growth targets meet visual precision.**

EXPERIENCE

Head of Marketing

JAN 2026 — PRESENT

CapQ — Financial Advisory · Hyderabad, India

- Lead the marketing function **end to end** for a financial advisory firm — strategy, digital marketing, campaign execution and the brand narrative that carries all of it.
- Own the company's visual identity and **design system** outright: brand guidelines, collateral, pitch material and every client-facing asset, all produced in-house.
- **Designed and built the company website** — front-end development, content architecture and continuing iteration as the business grows.
- **Organise and lead ground activations** across expos, corporate parks and community programmes, putting the brand in front of its audience in person.
- Represent the company with MSMEs and across the builders' network, opening the conversations that turned into **closed deals**.
- Run growth, events, partnerships and production at the same time without letting design quality or brand consistency slip on any of them.

Graphic Designer

OCT 2024 — DEC 2025

The Classic Partnership Inc. · Design Agency · Toronto, Canada

- Led creative production across **9+ international brand accounts** simultaneously — executing end-to-end video editing, graphic design, and advanced motion graphics.
- Spearheaded spatial marketing assets for **Investohome's Puerto Rico** real estate properties, driving core visual engagement and leading to dedicated client retention.
- Managed **Midea Canada's multi-sub-brand design system** (Eureka, Pelonis, Comfee), maintaining distinct visual identities and overseeing high-volume content calendars.
- Coordinated branded visual activations for **Home Depot Canada and Kawasaki Canada** (via KD Displays) at both retail and commercial event scale.

SELECTED WORK

01 FUDO MYO

ENVIRONMENT SCENE · PERSONAL · JUL–AUG 2024

A ruined Buddhist temple complex consumed by nature. Lush flora and fauna grew around the Buddha statue, symbolizing harmony between decay and renewal. Concept to completion: sculpt in ZBrush, model in Maya, texture in Substance Painter, full real-time scene and cinematic staging in UE4.

Maya · ZBrush · Substance Painter · Unreal Engine 4

02 3D Modelling

ACADEMIC SERIES · SEMESTER V · JNAFAU

Comprehensive 3D production from base mesh to final lit render. Spanning organic sculpting to hard-surface modelling — anatomical structures, intricate surfaces and rigid body mechanics. High-poly sculpts retopologised, UV unwrapped, textured in Substance Painter, and rendered in Arnold.

Maya · ZBrush · Substance Painter · Arnold

03 Environment Design

ACADEMIC SERIES · SEMESTER VI · JNAFAU

Interior and exterior environments built end-to-end inside UE4 — terrain generation, landscape sculpting, foliage placement, PBR materials, cinematic camera blocking and Sequencer passes. Full lighting across day and night: interior volumetrics, atmospheric fog, sky lighting and IBL.

Unreal Engine 4 · Maya · Substance Painter

04 Graphic Design

COMMERCIAL SERIES · SELECTED WORKS

A curated collection of my most appreciated commercial work: high-impact brand identities, multi-platform campaign assets, YouTube thumbnails and comprehensive motion graphics. Approved for sharing by major clients — full-funnel visual communication from static layouts to kinetic typography.
